

# ERIC ESPINDOLA CHAVEZ · Software Engineer

Sunnyside, WA • [eric\\_e\\_2012@hotmail.com](mailto:eric_e_2012@hotmail.com) • (509)840-0824 • [Linkedin](#) • [Github](#)

## SKILLS

---

- Ruby
- RSpec
- CircleCI
- Active Record
- Ruby on Rails
- Github
- Postman
- GraphQL

## SOFTWARE PROJECTS

---

[The List](#) | [Repository](#) | **Group Project** | **6 person Team** | **60 hours** **Aug - 2022**

- Full Stack web application that allows friends to find and recommend movies or books to users
  - Created and exposed an API on the back end that was then used by the Front End team for UX design.
  - Miro board, Bootstrap, GitHub Issues/Projects, Test Driven Design.
- Tech Stack:** Ruby, Rails, Heroku, Bootstrap, GitHub Issues/Projects

[Sweater Weather](#) | [Repository](#) | **Solo Project** | **50 hours** **Jul - 2022**

- Ruby on Rails API whose endpoints allow a user to be able to access weather forecasts for a given location or a given destination.
  - Exposed an API that aggregates data from multiple external APIs based on the need from Front End Developers. API follows RESTful practices.
  - Followed Test Driven Design to implement the project using RSpec. Rspec coverage over 98% for implemented code. Used VCR/webmock gem to mock website data and avoid multiple api calls.
- Tech Stack:** Ruby, Rails, CircleCI, Postman, GitHub

[Little Esty Shop](#) | [Repository](#) | **Group Project** | **4 person Team** | **50 hours** **Jul - 2022**

- Full Stack web application that tracks a merchant's information and relevant data.
  - Used Active Record to query merchant information and external service to provide upcoming holidays.
  - Followed Test Driven Design for app implementation using RSpec.
- Tech Stack:** Ruby, Rails, Heroku, Bootstrap, GitHub Issues/Projects

## EXPERIENCE

---

**Equal Opportunity Schools, Data Management Specialist, Seattle, WA** **Jan 2020 – Mar 2022**

- Attend daily scrum meetings
- Communicate client side issues with the development team.
- Create user stories for features needing to be added or corrected on the company's application for storing data

**Expedia Group, Commission QC Analyst, Seattle, WA** **Aug 2018 – Oct 2019**

- Review commission contracts and correct issues with incorrectly implemented terms
- Query ticket data with SQL for test data

## EDUCATION

---

**Turing School of Software and Design, Denver, CO** **May 2022 - Aug 2022**  
Accredited Backend Software Engineering Certificate

**Western Washington University, Bellingham, WA** **Sept 2012 - Dec- 2016**  
BS Mathematics
